

Tyk Foundation al Certificatio n

Foundation Course

About the Foundational Certification

- Foundational API management knowledge on Tyk
- Created for general audience - non-technical and technical
- Hands-on lab sessions
- Quizzes for progress checks
- Preparation to progress on specific learning paths
- Access to Customer Solutions Architects for additional support

About Tyk

Tyk is a modern API Management Platform: an open source gateway, powered by Go, and designed as cloud native from the start, enabling:

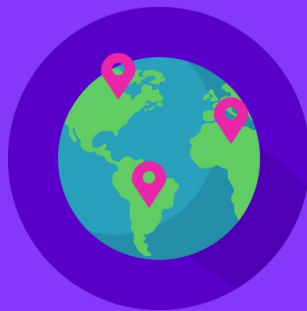

- Traffic management via the open source gateway
- Lifecycle management, analytics and observability via our intuitive dashboard
- Developer self-service and community engagement through our Enterprise Developer Portal
- Highly flexible deployment models: cloud, cloud/multi-cloud hybrid and on-prem

2014

Here

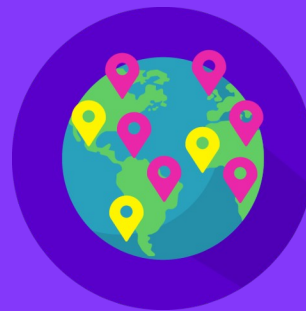

Tyk is born! Our CEO was looking for a lightweight yet highly performant API Gateway.

2016

There

Tyk is incorporated and the paid licensing and support model is made generally available.

Today

Everywhere

Tyk has over 151 employees in 31 countries worldwide with hundreds of customers on six continents.

THE WHOLE CYCLE

YEAH, BUT WHY TYK?

Tyk is not just a unique name!

Simplicity

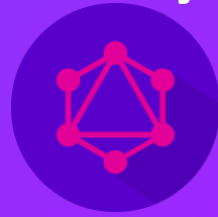

**Deployment
flexibility**

Batteries included

Highly secure

**GraphQL/ Universal
Data Graph**

Our own stack

THE REVIEWS ARE IN

Highly rated APIM Solution

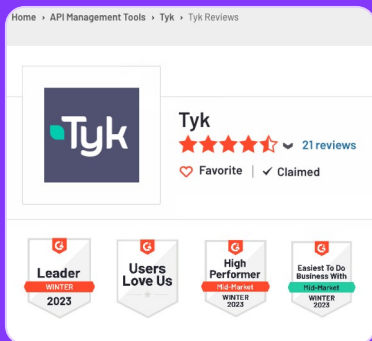

"Tyk is easy to set up, easy to integrate, support GraphQL and works excellent on K8s. The best dashboard out of any we tried. The support service is excellent"

Technical Director

"Most complete and feature-rich API Gateway. The onboarding process and the support we receive from Tyk Team are fantastic."

Senior Cloud Infrastructure Engineer

"The tyk platform allows us a consolidated and secure front-of-house for our APIs, from the ultra modern, all the way back to our most legacy (20+y/o) APIs, and it works every time"

Lead DevOps Engineer
